SEEQUENT · Evo

TRANSFORM MINING WORKFLOWS with Seequent Evo

Connect your teams, data, and applications in a single, secure platform with powerful compute capabilities.

Simplify collaboration

Enable cross-functional teams to integrate workflows, reuse past data, and automate common tasks in shared workspaces.

Make better, faster decisions

Evo brings all your geoscience data into one place for a single source of truth and more informed decision-making.

Innovate continuously

Take advantage of powerful computing, machine learning-enabled models, and the ability to connect your own custom builds.

Understand the underground like never before with Seequent Evo, the future of mining intelligence.
